INTERNATIONAL
JOURNAL OF
PSYCHOPHYSIOLOGY

Author Index (Vol. 16)

Anderson, S.J., see Daniels, R. (16) 251
Anderson, S.J., see Harding, G.F.A. (16) 175
Apkarian, P.
Electrodiagnosis in paediatric ophthalmogenetics (16) 229
Arakaki, H., see Ogura, C. (16) 89
Arden, G.B.
An overview of the uses and abuses of electrodiagnosis in ophthalmology (16) 113

Backs, R.W. and Seljos, K.A.
Metabolic and cardiorespiratory measures of mental effort: the effects of level of difficulty in a working memory task (16) 57
Barber, C.
Electrodes and the recording of the human electroretinogram (ERG) (16) 131
Barnea, A., Granot, R. and Pratt, H.
Absolute pitch—electrophysiological evidence (16) 29
Barnes, G., see Harding, G.F.A. (16) 175
Bedford, J., see Harding, G.F.A. (16) 175
Bisti, S., see Porciatti, V. (16) 185
Bourriez, J.L., see Dujardin, K. (16) 17
Brecelj, J.
Electrodiagnostics of chiasmal compressive lesions (16) 263
Brelstaff, G.J. and Wilson, J.B.
Generating colour and texture verniers (16) 199
Burr, D.C., see Porciatti, V. (16) 185

Cerutti, S., see Chiarenza, G.A. (16) 163
Chiarenza, G.A., Cerutti, S. and Liberati, D.
Analysis of single trial movement-related brain macropotential (16) 163

Daniels, R., Harding, G.F.A. and Anderson, S.J.
Effect of dopamine and acetylcholine on the visual evoked potential (16) 251
De Alwis, D.V., see Tregear, S.J. (16) 191
Dean Hart, J.C. and Papakostopoulos, D.
Electrodiagnostic evaluation of the visual system: the role of the clinician (16) 121
Degg, C., see Harding, G.F.A. (16) 175
Douros, C., Karrer, R. and Rosenfeld, J.P.
The self-regulation of slow potential shifts and evoked potentials: interrelationships in response to somatosensory stimulation (16) 69
Drasdo, N., see Thompson, D.A. (16) 219
Dujardin, K., Bourriez, J.L. and Guieu, J.D.
Event-related desynchronization (ERD) patterns during verbal memory tasks: effect of age (16) 17

Fiorentini, A., see Porciatti, V. (16) 185
Fukao, K., see Ogura, C. (16) 89
Fylan, F., see Harding, G.F.A. (16) 175

Gilday, R.T., see Tregear, S.J. (16) 191
Gogolitsyn, Y., see Papakostopoulos, D. (16) 155
Granot, R., see Barnea, A. (16) 29
Gruzelier, J. and Raine, A.
Bilateral electrodermal activity and cerebral mechanisms in syndromes of schizophrenia and the schizotypal personality (16) 1
Guieu, J.D., see Dujardin, K. (16) 17

Harding, G.
Photosensitivity: a vestigial echo? The first Grey Walter lecture (16) 273
Harding, G.F.A., Degg, C., Anderson, S.J., Holliday, I., Fylan, F., Barnes, G. and Bedford, J.
Topographic mapping of the pattern onset evoked magnetic response to stimulation of different portions of the visual field (16) 175
Harding, G.F.A., see Daniels, R. (16) 251
Harding, G.F.A., see Rudduck, G.A. (16) 209
Hirano, K., see Ogura, C. (16) 89
Hokama, H., see Ogura, C. (16) 89
Holliday, I., see Harding, G.F.A. (16) 175

Kaiser, D.A., see Sterman, M.B. (16) 49
Karrer, R., see Douros, C. (16) 69
Knowles, P.J., see Tregear, S.J. (16) 191
Kriss, A.
Skin ERGs: their effectiveness in paediatric visual assessment, confounding factors, and comparison with ERGs recorded using various types of corneal electrode (16) 137

Liberati, D., see Chiarenza, G.A. (16) 163

Mann, C.A., see Sterman, M.B. (16) 49
Mohl, W., see Pfurtscheller, G. (16) 147
Morrone, M.C., see Porciatti, V. (16) 185

Nageishi, Y., see Ogura, C. (16) 89
Neuper, C., see Pfurtscheller, G. (16) 147

Ogura, C., Hirano, K., Nageishi, Y., Takeshita, S., Fukao, K., Hokama, H., Ohta, H. and Arakaki, H.
Deviate P200 and P300 in non-patient college students with high scores on the schizophrenia scale of the Minnesota Multiphasic Personality Inventory (MMPI) (16) 89
Ogura, C., see Takeshita, S. (16) 99
Ohta, H., see Ogura, C. (16) 89

Papakostopoulos, D. and Gogolitsyn, Y.
Optimised averaging by on-line statistical verification of response in clinical electrodiagnostic trials (16) 155
Papakostopoulos, D., see Dean Hart, J.C. (16) 121
Papakostopoulos, D., see Papathanasopoulos, P.G. (16) 245
Papathanasopoulos, P.G. and Papakostopoulos, D.
Pattern reversal visual evoked potentials in retinitis pigmentosa (16) 245
Pfurtscheller, G., Neuper, C. and Mohl, W.
Event-related desynchronization (ERD) during visual processing (16) 147
Porciatti, V., Morrone, M.C., Fiorentini, A., Burr, D.C. and Bisti, S.
The pattern electroretinogram in response to colour contrast in man and monkey (16) 185
Pratt, H., see Barnea, A. (16) 29

Raine, A., see Gruzelier, J. (16) 1
Reffin, J.P., see Tregear, S.J. (16) 191
Ripley, L.G., see Tregear, S.J. (16) 191
Rosenfeld, J.P., see Douros, C. (16) 69
Rudduck, G.A. and Harding, G.F.A.
Visual electrophysiology to achromatic and chromatic stimuli in premature and full term infants (16) 209

Seljos, K.A., see Backs, R.W. (16) 57
Sterman, M.B., Mann, C.A., Kaiser, D.A. and Suyenobu, B.Y.
Multiband topographic EEG analysis of a simulated visuomotor aviation task (16) 49
Suyenobu, B.Y., see Sterman, M.B. (16) 49

Takeshita, S. and Ogura, C.
Effect of the dopamine D_2 antagonist sulpiride on event-related potentials and its relation to the law of initial value (16) 99
Takeshita, S., see Ogura, C. (16) 89
Tan, Ü.
The grasp reflex from the right and left hand in human neonates indicates that the development of both cerebral hemispheres in males, but only the right hemisphere in females, is favoured by testosterone (16) 39
Tarkka, I.M.
Electrical source localization of human movement-related cortical potentials (16) 81
Thompson, D.A. and Drasdo, N.
The origins of luminance and pattern responses of the pattern electroretinogram (16) 219
Tregear, S.J., Ripley, L.G., Knowles, P.J., Gilday, R.T., De Alwis, D.V. and Reffin, J.P.
Automated tritan discrimination sensitivity: a new clinical technique for the effective screening of severe diabetic retinopathy (16) 191

Wilson, J.B., see Brelstaff, G.J. (16) 199

International Journal of Psychophysiology 16 (1994) 283–288

INTERNATIONAL
JOURNAL OF
PSYCHOPHYSIOLOGY

Key Word Index (Vol. 16)

Absolute pitch
Relative pitch; Evoked potentials; Music perception (Barnea, A. (16) 29)

Acetylcholine
Dopamine; Alzheimer's disease; Parkinson's disease; VEP; Magnocellular; Parvocellular (Daniels, R. (16) 251)

Achromatic
Infant; Premature; Development; VEP; Chromatic; Isoluminance (Rudduck, G.A. (16) 209)

Acuity
Visual evoked potential (VEP); Development; Defocus; Albinism; Amblyopia; Neurofibromatosis; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

Age
Event-related desynchronization; Memory; Cognitive processes; Brain mapping (Dujardin, K. (16) 17)

Albinism
ERG electrodes; Infants; Children; Leber's amaurosis; Rod monochromatism; Delayed visual maturation; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Visual evoked potential (VEP); Development; Acuity; Defocus; Amblyopia; Neurofibromatosis; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

Alpha blocking
ERD; Visual processing; Cognitive processing (Pfurtscheller, G. (16) 147)

Alpha rhythm
Aviation; Cognition; Performance; Spectral analysis; Topographic EEG (Sterman, M.B. (16) 49)

Alzheimer's disease
Acetylcholine; Dopamine; Parkinson's disease; VEP; Magnocellular; Parvocellular (Daniels, R. (16) 251)

Amblyopia
Visual evoked potential (VEP); Development; Acuity; Defocus; Albinism; Neurofibromatosis; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

ARX model
Single trial; Movement related potentials; Bereitschaftspotential; Skilled performance positivity (Chiarenza, G.A. (16) 163)

Automated screening
Diabetic retinopathy; Colour vision (Tregear, S.J. (16) 191)

Aviation
Alpha rhythm; Cognition; Performance; Spectral analysis; Topographic EEG (Sterman, M.B. (16) 49)

Bereitschaftspotential
Single trial; ARX model; Movement related potentials; Skilled performance positivity (Chiarenza, G.A. (16) 163)

Biofeedback
Contingent negative variations; Event-related potentials; Pain; Poststimulus conditioning; Self-regulation; Slow potentials; Somatosensory (Douros, C. (16) 69)

Brain development
Grasp reflex; Cerebral lateralization; Testosterone; Handedness; Familial sinistrality; (Human neonate) (Tan, Ü. (16) 39)

Brain mapping
Event-related desynchronization; Memory; Cognitive processes; Age (Dujardin, K. (16) 17)

Calcarine fissure
Visual evoked magnetic responses; Neuromagnetometry; Pattern onset/offset; Multi channel magnetic recording (Harding, G.F.A. (16) 175)

Cerebral lateralization
Grasp reflex; Testosterone; Handedness; Brain development; Familial sinistrality; (Human neonate) (Tan, Ü. (16) 39)

Cerebral mechanism
Electrodermal activity; Schizophrenia; Limbic dysfunction; Schizotypal personality (Gruzelier, J. (16) 1)

Chiasmal lesions
Compressive lesions; Electrodiagnostics; Visual evoked potentials (Brecelj, J. (16) 263)

Children
ERG electrodes; Infants; Leber's amaurosis; Rod monochromatism; Albinism; Delayed visual maturation; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Chromatic
Infant; Premature; Development; VEP; Achromatic; Isoluminance (Rudduck, G.A. (16) 209)

Clinician
Electrodiagnostic evaluation; Visual system (Dean Hart, J.C. (16) 121)

Cognition
Aviation; Alpha rhythm; Performance; Spectral analysis; Topographic EEG (Sterman, M.B. (16) 49)

Cognitive processes
Event-related desynchronization; Memory; Brain mapping; Age (Dujardin, K. (16) 17)

Cognitive processing
ERD; Alpha blocking; Visual processing (Pfurtscheller, G. (16) 147)

Colour
EOG; PERG; ERG; VER; Ophthalmology; Glaucoma (Arden, G.B. (16) 113)

Vision; Retina; Electroretinogram; Pattern stimulus; Human; Monkey (Porciatti, V. (16) 185)

Texture; Vernier; Localisation; Computer graphics (Brelstaff, G.J. (16) 199)

Colour vision
Diabetic retinopathy; Automated screening (Tregear, S.J. (16) 191)

Compressive lesions
Chiasmal lesions; Electrodiagnostics; Visual evoked potentials (Brecelj, J. (16) 263)

Computer graphics
Colour; Texture; Vernier; Localisation (Brelstaff, G.J. (16) 199)

Congenital stationary nightblindness
ERG electrodes; Infants; Children; Leber's amaurosis; Rod monochromatism; Albinism; Delayed visual maturation; Optic nerve hypolasia (Kriss, A. (16) 137)

Contact-glass
Electrode; Electroretinogram; Dipole; Fibre; Foil; Corneal (Barber, C. (16) 131)

Contingent negative variations
Biofeedback; Event-related potentials; Pain; Poststimulus conditioning; Self-regulation; Slow potentials; Somatosensory (Douros, C. (16) 69)

Corneal
Electrode; Electroretinogram; Dipole; Contact-glass; Fibre; Foil (Barber, C. (16) 131)

Defocus
Visual evoked potential (VEP); Development; Acuity; Albinism; Amblyopia; Neurofibromatosis; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

Delayed visual maturation
ERG electrodes; Infants; Children; Leber's amaurosis; Rod monochromatism; Albinism; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Development
Infant; Premature; VEP; Achromatic; Chromatic; Isoluminance (Rudduck, G.A. (16) 209)

Visual evoked potential (VEP); Acuity; Defocus; Albinism; Amblyopia; Neurofibromatosis; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

Diabetic retinopathy
Colour vision; Automated screening (Tregear, S.J. (16) 191)

Dipole
Electrode; Electroretinogram; Contact-glass; Fibre; Foil; Corneal (Barber, C. (16) 131)

Dopamine
Acetylcholine; Alzheimer's disease; Parkinson's disease; VEP; Magnocellular; Parvocellular (Daniels, R. (16) 251)

Dopamine D_2
Event-related potentials; Latency, N100, P200, N200, P300; Sulpiride; Law of initial value (Takeshita, S. (16) 99)

Electrical source localization
Movement-related cortical potentials; Topographic EEG-mapping (Tarkka, I.M. (16) 81)

Electrode
Electroretinogram; Dipole; Contact-glass; Fibre; Foil; Corneal (Barber, C. (16) 131)

Electrodermal activity
Cerebral mechanism; Schizophrenia; Limbic dysfunction; Schizotypal personality (Gruzelier, J. (16) 1)

Electrodiagnostic evaluation
Visual system; Clinician (Dean Hart, J.C. (16) 121)

Electrodiagnostics
Chiasmal lesions; Compressive lesions; Visual evoked potentials (Brecelj, J. (16) 263)

Electrodiagnostic tests
Statistical verification; Optimised averaging (Papakostopoulos, D. (16) 155)

Electroretinogram
Electrode; Dipole; Contact-glass; Fibre; Foil; Corneal (Barber, C. (16) 131)

Vision; Retina; Pattern stimulus; Colour; Human; Monkey (Porciatti, V. (16) 185)

Energy expenditure
Mental effort; Memory load; Temporal demand; Individual differences; Heart period; Heart rate variability; Respiration (Backs, R.W. (16) 57)

EOG
PERG; ERG; VER; Ophthalmology; Colour; Glaucoma (Arden, G.B. (16) 113)

ERD
Alpha blocking; Visual processing; Cognitive processing (Pfurtscheller, G. (16) 147)

ERG
EOG; PERG; VER; Ophthalmology; Colour; Glaucoma (Arden, G.B. (16) 113)

ERG electrodes
Infants; Children; Leber's amaurosis; Rod monochromatism; Albinism; Delayed visual maturation; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Event-related desynchronization
Memory; Cognitive processes; Brain mapping; Age (Dujardin, K. (16) 17)

Event-related potentials
Biofeedback; Contingent negative variations; Pain; Poststimulus conditioning; Self-regulation; Slow potentials; Somatosensory (Douros, C. (16) 69)

Latencies, P300 and P200; Minnesota multiphasic personality inventory; Vulnerability; Schizophrenia (Ogura, C. (16) 89)

Latency, N100, P200, N200, P300; Dopamine D_2; Sulpiride; Law of initial value (Takeshita, S. (16) 99)

Evoked potentials
Absolute pitch; Relative pitch; Music perception (Barnea, A. (16) 29)

Familial sinistrality
Grasp reflex; Cerebral lateralization; Testosterone; Handedness; Brain development; (Human neonate) (Tan, Ü. (16) 39)

Fibre
Electrode; Electroretinogram; Dipole; Contact-glass; Foil; Corneal (Barber, C. (16) 131)

Foil
Electrode; Electroretinogram; Dipole; Contact-glass; Fibre; Corneal (Barber, C. (16) 131)

Ganglion cell
Pattern onset electroretinogram; Luminance; MTF; Temporal contrast (Thompson, D.A. (16) 219)

Glaucoma
EOG; PERG; ERG; VER; Ophthalmology; Colour (Arden, G.B. (16) 113)

Grasp reflex
Cerebral lateralization; Testosterone; Handedness; Brain development; Familial sinistrality; (Human neonate) (Tan, Ü. (16) 39)

Handedness
Grasp reflex; Cerebral lateralization; Testosterone; Brain development; Familial sinistrality; (Human neonate) (Tan, Ü. (16) 39)

Heart period
Mental effort; Memory load; Temporal demand; Individual differences; Heart rate variability; Respiration; Energy expenditure (Backs, R.W. (16) 57)

Heart rate variability
Mental effort; Memory load; Temporal demand; Individual differences; Heart period; Respiration; Energy expenditure (Backs, R.W. (16) 57)

Human
Vision; Retina; Electroretinogram; Pattern stimulus; Colour; Monkey (Porciatti, V. (16) 185)

Individual differences
Mental effort; Memory load; Temporal demand; Heart period; Heart rate variability; Respiration; Energy expenditure (Backs, R.W. (16) 57)

Infant
Premature; Development; VEP; Achromatic; Chromatic; Isoluminance (Rudduck, G.A. (16) 209)

Infants
ERG electrodes; Children; Leber's amaurosis; Rod monochromatism; Albinism; Delayed visual maturation; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Intermittent photic stimulation
Photoconvulsive response; Photosentitive epilespy (Harding, G. (16) 273)

Isoluminance
Infant; Premature; Development; VEP; Achromatic; Chromatic (Rudduck, G.A. (16) 209)

Latencies, P300 and P200
Event-related potentials; Minnesota multiphasic personality inventory; Vulnerability; Schizophrenia (Ogura, C. (16) 89)

Latency, N100, P200, N200, P300
Event-related potentials; Dopamine D_2; Sulpiride; Law of initial value (Takeshita, S. (16) 99)

Law of initial value
Event-related potentials; Latency, N100, P200, N200, P300; Dopamine D_2; Sulpiride (Takeshita, S. (16) 99)

Leber's amaurosis
ERG electrodes; Infants; Children; Rod monochromatism; Albinism; Delayed visual maturation; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Limbic dysfunction
Electrodermal activity; Cerebral mechanism; Schizophrenia; Schizotypal personality (Gruzelier, J. (16) 1)

Localisation
Colour; Texture; Vernier; Computer graphics (Brelstaff, G.J. (16) 199)

Luminance
Pattern onset electroretinogram; Ganglion cell; MTF; Temporal contrast (Thompson, D.A. (16) 219)

Magnocellular
Acetylcholine; Dopamine; Alzheimer's disease; Parkinson's disease; VEP; Parvocellular (Daniels, R. (16) 251)

Memory
Event-related desynchronization; Cognitive processes; Brain mapping; Age (Dujardin, K. (16) 17)

Memory load
Mental effort; Temporal demand; Individual differences; Heart period; Heart rate variability; Respiration; Energy expenditure (Backs, R.W. (16) 57)

Mental effort
Memory load; Temporal demand; Individual differences; Heart period; Heart rate variability; Respiration; Energy expenditure (Backs, R.W. (16) 57)

Minnesota multiphasic personality inventory
Event-related potentials; Latencies, P300 and P200; Vulnerability; Schizophrenia (Ogura, C. (16) 89)

Monkey
Vision; Retina; Electroretinogram; Pattern stimulus; Colour; Human (Porciatti, V. (16) 185)

Movement-related cortical potentials
Electrical source localization; Topographic EEG-mapping (Tarkka, I.M. (16) 81)

Movement related potentials
Single trial; ARX model; Bereitschaftspotential; Skilled performance positivity (Chiarenza, G.A. (16) 163)

MTF
Pattern onset electroretinogram; Ganglion cell; Luminance; Temporal contrast (Thompson, D.A. (16) 219)

Multi channel magnetic recording
Visual evoked magnetic responses; Calcarine fissure; Neuromagnetometry; Pattern onset/offset (Harding, G.F.A. (16) 175)

Music perception
Absolute pitch; Relative pitch; Evoked potentials (Barnea, A. (16) 29)

Neurofibromatosis
Visual evoked potential (VEP); Development; Acuity; Defocus; Albinism; Amblyopia; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

Neuromagnetometry
Visual evoked magnetic responses; Calcarine fissure; Pattern onset/offset; Multi channel magnetic recording (Harding, G.F.A. (16) 175)

Ophthalmology
EOG; PERG; ERG; VER; Colour; Glaucoma (Arden, G.B. (16) 113)

Optic nerve hypolasia
ERG electrodes; Infants; Children; Leber's amaurosis; Rod monochromatism; Albinism; Delayed visual maturation; Congenital stationary nightblindness (Kriss, A. (16) 137)

Optimised averaging
Electrodiagnostic tests; Statistical verification (Papakostopoulos, D. (16) 155)

Pain
Biofeedback; Contingent negative variations; Event-related potentials; Poststimulus conditioning; Self-regulation; Slow potentials; Somatosensory (Douros, C. (16) 69)

Parkinson's disease
Acetylcholine; Dopamine; Alzheimer's disease; VEP; Magnocellular; Parvocellular (Daniels, R. (16) 251)

Parvocellular
Acetylcholine; Dopamine; Alzheimer's disease; Parkinson's disease; VEP; Magnocellular (Daniels, R. (16) 251)

Pattern onset electroretinogram
Ganglion cell; Luminance; MTF; Temporal contrast (Thompson, D.A. (16) 219)

Pattern onset / offset
Visual evoked magnetic responses; Calcarine fissure; Neuromagnetometry; Multi channel magnetic recording (Harding, G.F.A. (16) 175)

Pattern reversal visual evoked potentials
Retinitis pigmentosa (Papathanasopoulos, P.G. (16) 245)

Pattern stimulus
Vision; Retina; Electroretinogram; Colour; Human; Monkey (Porciatti, V. (16) 185)

Pelizaeus-Merzbacher disease
Visual evoked potential (VEP); Development; Acuity; Defocus; Albinism; Amblyopia; Neurofibromatosis; Spastic paraplegia (Apkarian, P. (16) 229)

Performance
Aviation; Alpha rhythm; Cognition; Spectral analysis; Topographic EEG (Sterman, M.B. (16) 49)

PERG
EOG; ERG; VER; Ophthalmology; Colour; Glaucoma (Arden, G.B. (16) 113)

Photoconvulsive response
Intermittent photic stimulation; Photosentitive epilespy (Harding, G. (16) 273)

Photosentitive epilespy
Intermittent photic stimulation; Photoconvulsive response (Harding, G. (16) 273)

Poststimulus conditioning
Biofeedback; Contingent negative variations; Event-related potentials; Pain; Self-regulation; Slow potentials; Somatosensory (Douros, C. (16) 69)

Premature
Infant; Development; VEP; Achromatic; Chromatic; Isoluminance (Rudduck, G.A. (16) 209)

Relative pitch
Absolute pitch; Evoked potentials; Music perception (Barnea, A. (16) 29)

Respiration
Mental effort; Memory load; Temporal demand; Individual differences; Heart period; Heart rate variability; Energy expenditure (Backs, R.W. (16) 57)

Retina
Vision; Electroretinogram; Pattern stimulus; Colour; Human; Monkey (Porciatti, V. (16) 185)

Retinitis pigmentosa
Pattern reversal visual evoked potentials (Papathanasopoulos, P.G. (16) 245)

Rod monochromatism
ERG electrodes; Infants; Children; Leber's amaurosis; Albinism; Delayed visual maturation; Optic nerve hypolasia; Congenital stationary nightblindness (Kriss, A. (16) 137)

Schizophrenia
Electrodermal activity; Cerebral mechanism; Limbic dysfunction; Schizotypal personality (Gruzelier, J. (16) 1)

Event-related potentials; Latencies, P300 and P200; Minnesota multiphasic personality inventory; Vulnerability (Ogura, C. (16) 89)

Schizotypal personality
Electrodermal activity; Cerebral mechanism; Schizophrenia; Limbic dysfunction (Gruzelier, J. (16) 1)

Self-regulation
Biofeedback; Contingent negative variations; Event-related potentials; Pain; Poststimulus conditioning; Slow potentials; Somatosensory (Douros, C. (16) 69)

Single trial
ARX model; Movement related potentials; Bereitschaftspotential; Skilled performance positivity (Chiarenza, G.A. (16) 163)

Skilled performance positivity
Single trial; ARX model; Movement related potentials; Bereitschaftspotential (Chiarenza, G.A. (16) 163)

Slow potentials
Biofeedback; Contingent negative variations; Event-related potentials; Pain; Poststimulus conditioning; Self-regulation; Somatosensory (Douros, C. (16) 69)

Somatosensory
Biofeedback; Contingent negative variations; Event-related potentials; Pain; Poststimulus conditioning; Self-regulation; Slow potentials (Douros, C. (16) 69)

Spastic paraplegia
Visual evoked potential (VEP); Development; Acuity; Defocus; Albinism; Amblyopia; Neurofibromatosis; Pelizaeus-Merzbacher disease (Apkarian, P. (16) 229)

Spectral analysis
Aviation; Alpha rhythm; Cognition; Performance; Topographic EEG (Sterman, M.B. (16) 49)

Statistical verification
Electrodiagnostic tests; Optimised averaging (Papakostopoulos, D. (16) 155)

Sulpiride
Event-related potentials; Latency, N100, P200, N200, P300; Dopamine D_2; Law of initial value (Takeshita, S. (16) 99)

Temporal contrast
Pattern onset electroretinogram; Ganglion cell; Luminance; MTF (Thompson, D.A. (16) 219)

Temporal demand
Mental effort; Memory load; Individual differences; Heart period; Heart rate variability; Respiration; Energy expenditure (Backs, R.W. (16) 57)

Testosterone
Grasp reflex; Cerebral lateralization; Handedness; Brain development; Familial sinistrality; (Human neonate) (Tan, Ü. (16) 39)

Texture
Colour; Vernier; Localisation; Computer graphics (Brelstaff, G.J. (16) 199)

Topographic EEG
Aviation; Alpha rhythm; Cognition; Performance; Spectral analysis (Sterman, M.B. (16) 49)

Topographic EEG-mapping
Movement-related cortical potentials; Electrical source localization (Tarkka, I.M. (16) 81)

VEP
Infant; Premature; Development; Achromatic; Chromatic; Isoluminance (Rudduck, G.A. (16) 209)

Acetylcholine; Dopamine; Alzheimer's disease; Parkinson's disease; Magnocellular; Parvocellular (Daniels, R. (16) 251)

VER
EOG; PERG; ERG; Ophthalmology; Colour; Glaucoma (Arden, G.B. (16) 113)

Vernier
Colour; Texture; Localisation; Computer graphics (Brelstaff, G.J. (16) 199)

Vision
Retina; Electroretinogram; Pattern stimulus; Colour; Human; Monkey (Porciatti, V. (16) 185)

Visual evoked magnetic responses
Calcarine fissure; Neuromagnetometry; Pattern onset/offset; Multi channel magnetic recording (Harding, G.F.A. (16) 175)

Visual evoked potentials
Chiasmal lesions; Compressive lesions; Electrodiagnostics (Brecelj, J. (16) 263)

Visual evoked potential (VEP)
Development; Acuity; Defocus; Albinism; Amblyopia; Neurofibromatosis; Pelizaeus-Merzbacher disease; Spastic paraplegia (Apkarian, P. (16) 229)

Visual processing
ERD; Alpha blocking; Cognitive processing (Pfurtscheller, G. (16) 147)

Visual system
Electrodiagnostic evaluation; Clinician (Dean Hart, J.C. (16) 121)

Vulnerability
Event-related potentials; Latencies, P300 and P200; Minnesota multiphasic personality inventory; Schizophrenia (Ogura, C. (16) 89)
